Easy Rider Bodies: The body is molded from an aluminum alloy suitable for permanent molding. Castings are cleaned and welded to form the body. The welded and cleaned body are painted using a lead free polyester powder paint. The handle and foot rest are 1" aluminum tubing welded into place.

Thickness of the aluminum body shall be 3/16" and 5/16" at the bottom attaching area. The body is 9" high at the saddle and 28" from the front to back feet.

Heavy Duty Springs: The springs are made from 3/4" round rod rolled to 5 1/2" outside diameter and 13" high. Plates are 1/4" steel clamped to the spring with a 1/2" thick clamp. The complete assembly will be painted with a lead free polyester powder coating.

Hardware is zinc plated to resist corrosion.

Includes a limited lifetime warranty on the cast aluminum Easy Riders, all other components are covered by a one year warranty against defects in material and workmanship.
