

PORTABLE SIGN BASE

The Sign Base - Portable Recycled Rubber Sign Post Base, Sign Holder, and Sign Stanchion lets your customers, employees and visitors know you not only care about their safety, but also the environment. Our Sign Base is made in the USA from 100% post-consumer recycled tire rubber. Combined with our recycled aluminum traffic signs, they make an excellent choice for Green or LEED certified building projects.

Our attractive and durable Sign Base is ideal for parking lots, parking garages, crosswalks, schools, shopping malls, grocery stores, plazas, universities, hospitals, airports, construction sites, government facilities and many more. Use it anywhere portable or semi-permanent signage is needed - such as Handicapped parking spots, entrances, pedestrian crosswalks, intersections, corporate facilities, events, and more. Aerodynamic and heavy enough to stay upright, yet light enough to be tipped and rolled to another location.

FEATURES

- 100% Post Consumer Recycled Tire Rubber
- Enhances safety and minimizes liability/damage in vehicle/pedestrian incidents
- Supports any sign up to 24" diameter: traffic signs, event signage, temporary, etc.
- All-weather easy maintenance: will not rust, chip, crack, crumble, corrode, or need repainting
- Easy to install, easy to move for snow removal, maintenance or storage - just tip and roll
- Aerodynamic design - low center of gravity - withstands strong winds and severe weather
- Product Limited Lifetime Warranty
- Patents pending
- Made in America

SPECIFICATIONS

- 18" Round / Wide x 14" High Conical Shape
- Cone Shape Sign Post Base - very low center of gravity for added stability
