

Curved Post Chain Climbing Wall

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

Kids can race to the top with the Curved Post Chain Climbing Wall. The metal rungs do not bend, allowing children to ascend both safely and comfortably. The steel chains are made to handle rough play and multiple children at once. They are also durable and can weather the elements year-round. This unit offers a great way for kids to exercise while also encouraging social play. Climbing is a total body workout - legs, core, and arms all work in tandem to move about the structure. This helps to improve coordination and kinesthetic awareness. Multiple kids can play on this climber, promoting communal play. Once children reach the top, they can climb over the bar and continue their descent. The 4 posts create a notably solid base while also providing a novel design. A broad spectrum of colors is available so you can customize the unit to match your play area.

Product Specifications

Age Range: 5-12 years

Child Capacity: 4-8

Fall Height: 96"

Post Diameter: 4.5-inch

Product Type: Get Physical

Safety Zone: 16' 3" x 21' 6"
