

# Curved Post Triple Wing Climber

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

Intrigue young minds with the large, oval panels of the Curved Post Triple Wing Climber. The wings are checkered with holes that children can put their feet or hands through as they ascend. The holes also offer curious vantage points during imaginative play. A bar across the bottom of the curved posts grants kids the option to easily hop onto the side panels. Each of the three wings is set at a different angle, creating a new experience every time a child climbs or plays with one of the panels. Each wing can handle multiple kids at once, whether they climb them or play with them on the ground. The distinctive shape and pattern of the wings will be sure to inspire creativity. Children can pretend the wings are shields, giant leaves, or anything that a child's mind can create - the options are infinite. You can create a distinctive color scheme with a wide range of color options.

## Product Specifications

**Age Range:** 5-12 years

**Child Capacity:** 4-7

**Fall Height:** 96"

**Post Diameter:** 4.5-inch

**Product Type:** Get Physical

**Safety Zone:** 16' 3" x 20' 11"
