

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

Children will want to get stuck in Mission Ready's web. This 3D Net Climber provides a unique way to climb while strengthening social and physical skills in the process. As kids climb with others, bonds will form. Also, the act of climbing works important muscle groups including the legs and abdominals. Benefits like these elevate this climber above the rest while keeping an approachable height. The final image shows the structure next to an average American male for scale. The Mission Ready's steel fixture is painted with a rust-resisting, powder-coat paint. This paint's color can be customized to fit any want or need. Stretched between the frames is a weaving of precisely placed steel ropes that are wrapped in nylon. These ropes can easily support the weight of multiple children at one time; making this a socially friendly unit. There is something for every type of kid, which is why it is ideal for schools, parks and other outdoor venues with elementary school aged children. Kids will always be ready for Mission Ready.

## Product Specifications

**Age Range:** 5-12 years

**Child Capacity:** 25-30

**Fall Height:** 108"

**Product Type:** Rope Net

**Safety Zone:** 30' 2" x 31' 4"
